

0055-2090

Longwall Metatarsal Leather Mining Boots - 10"

Overview

Co-designed with a team of veteran miners, the Longwall™ features a waterproof, breathable GORE-TEX® lining and a triple-stitched, 2-2.2mm waterproof leather. The non-metallic toe, Flex-Shield II™ midsole, and a floating MetFlex™ metatarsal guard meet or exceed ASTM F2413-05 M I/75 C/75 EH PR Mt. The protective rubber heel and toe are abrasion and chemical resistant. A 360° reflective paneling enhances visibility and the Vibram® outsole provides lightweight comfort as well as superb shock absorption. 200 G. Thinsulate™ provides insulating protection from heat and cold. Fiberglass shank.

BOOT FEATURES

- **GORE-TEX® lining** for the ultimate in comfortable, breathable waterproof protection.
- **Vibram® 1276 outsole** is specifically designed for comfort and durability. The heel provides lightweight comfort as well as superb shock absorption. The compound guarantees great traction and stability on both wet and dry surfaces.
- **200 grams of Thinsulate™ Insulation** offer lightweight warmth for those needing protection in cold climates.
- **Stitchdown construction** provides a wider platform for increased stability underfoot.
- **Non-metallic toe, Flex-Shield II midsole and floating MetFlex metatarsal guard** all resist the transfer of heat and cold and all meet and exceed ASTM F 2413 M 1/75 C/75 Mt/75 EH PR.</LI?
- **Knurled rubber rand** at the forefoot and heel for added protection and abrasion-resistance.
- 2.0-2.2mm of waterproof leather.
- **Triple-stitched** upper for durability.
- **Reflective paneling** for safety.
- **Removable Fatigue Fighter footbed** for cushioning comfort.

Size & Fit

Lasting System

A better last means a better fit. The last is the foundation we build our boots around. A good last makes the difference between boot that fits just okay and a boot that fits just right. So we make sure our lasts are designed with your performance needs in mind.

Width

This boot is available in a Medium and Wide Widths.

Tips for the Perfect Fit

- Measure both feet. If one foot is slightly larger than the other, select a size that fits the larger of the two.
- Consider the type of socks you'll be wearing with your boot. For thicker socks, you may want to select a half size larger than you normally wear.
- When you do receive your boots, we recommend first wearing them indoors for a few hours to ensure they're the right fit.
